

Count of active by active

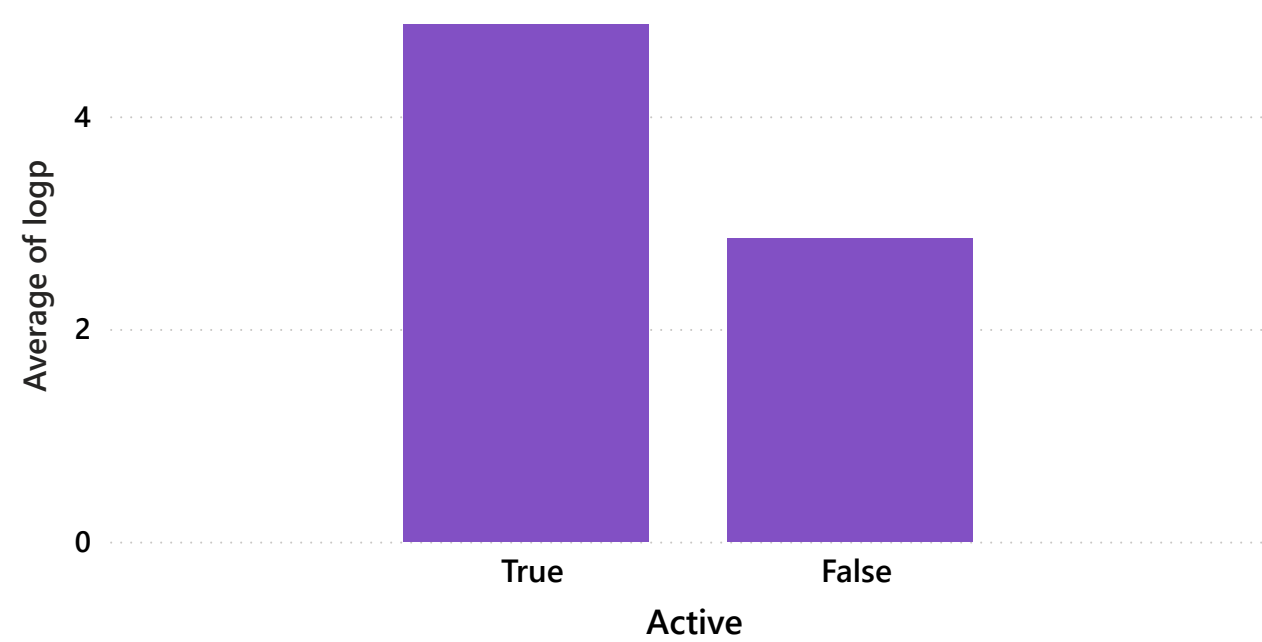

Count of compound_id by h_bond_acceptors

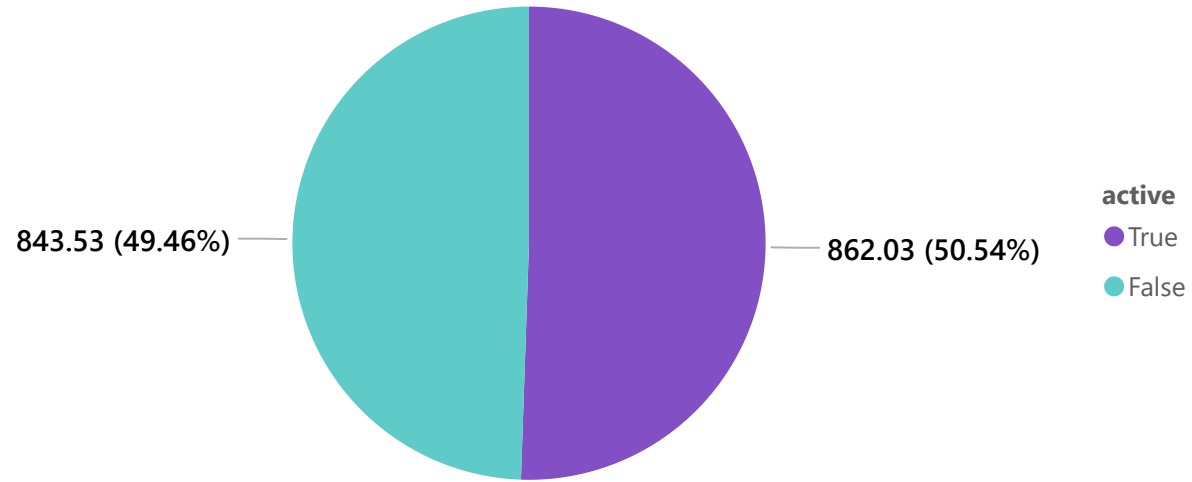

Count of compound_id by h_bond_donors

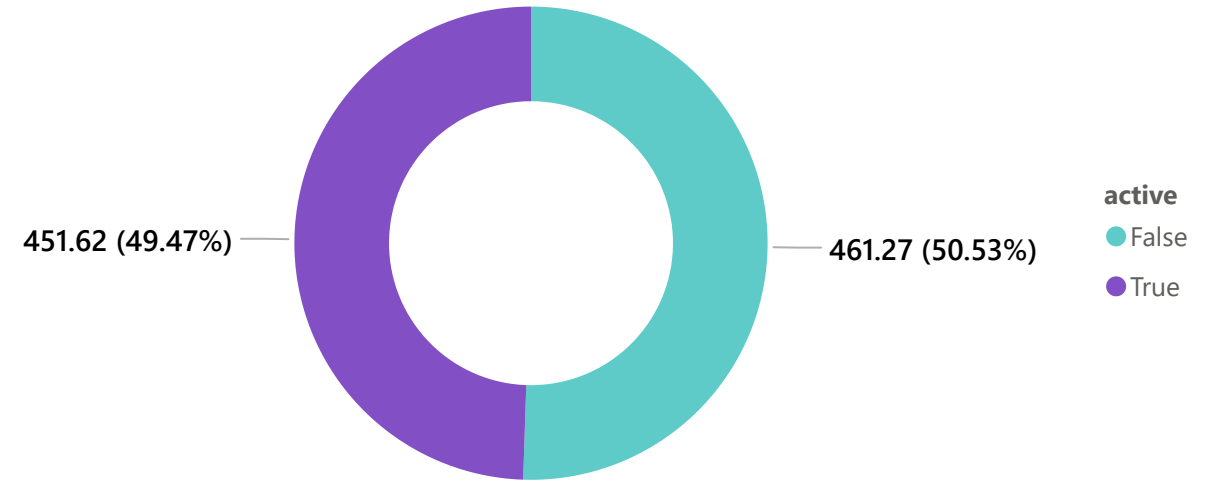

Average of logp by active

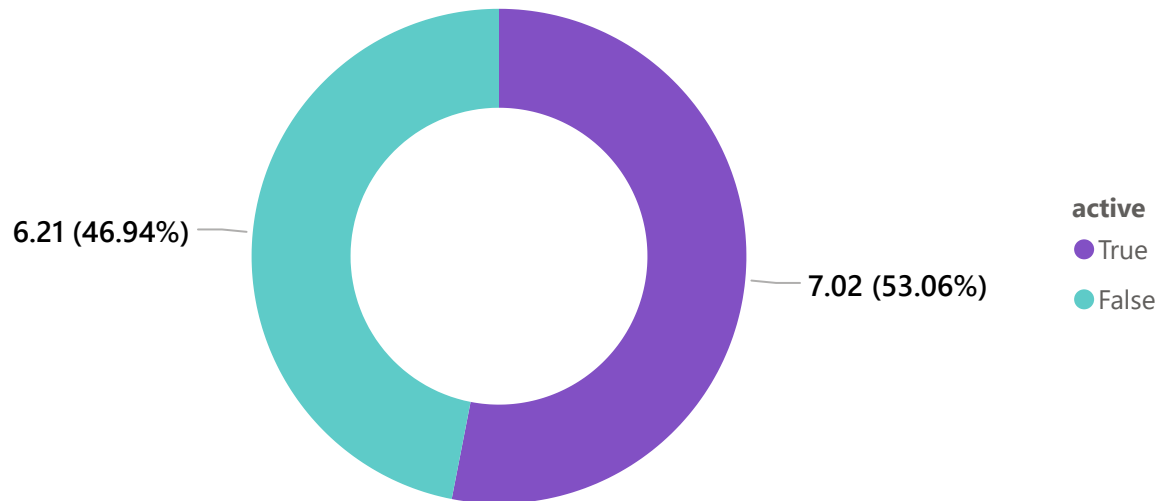

Average of protein_length by active

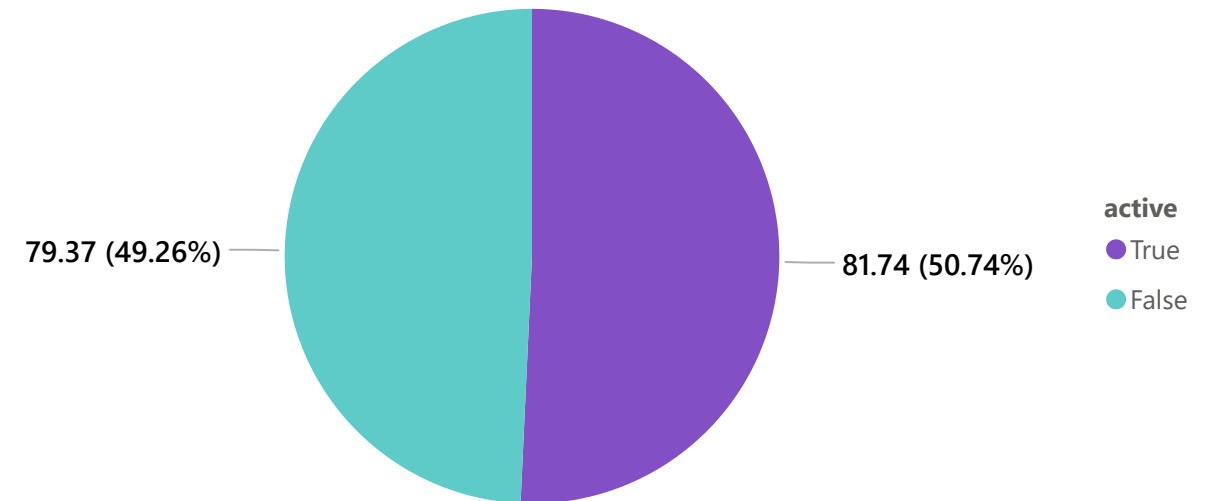

Average of molecular_weight by active

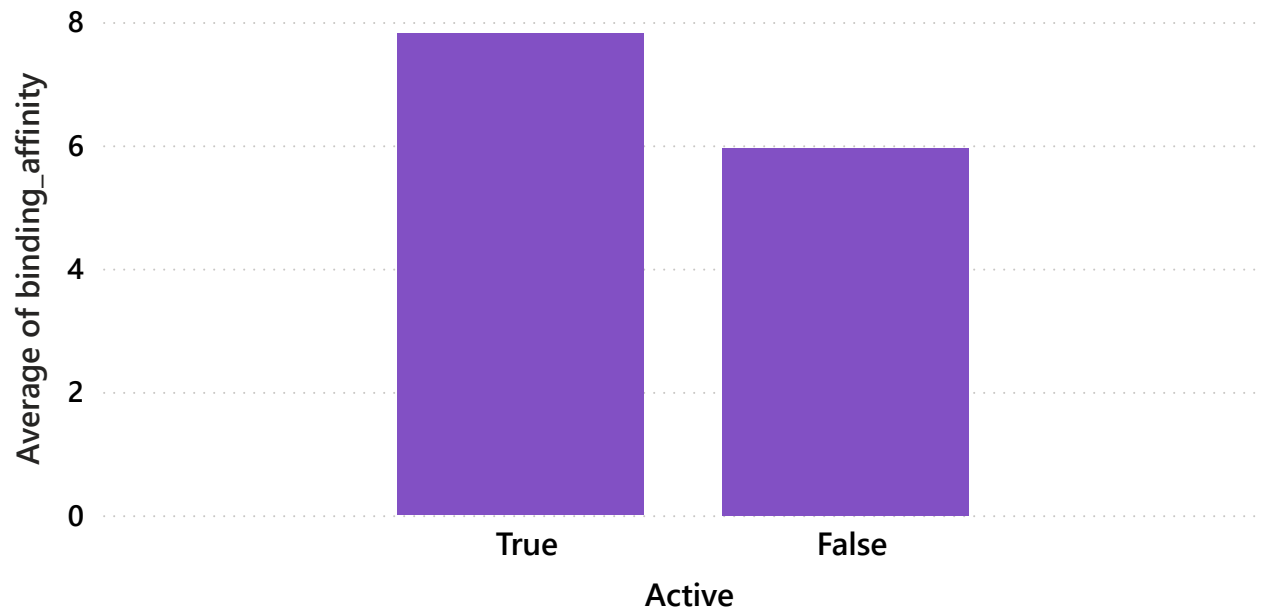

Average of protein_pi by active

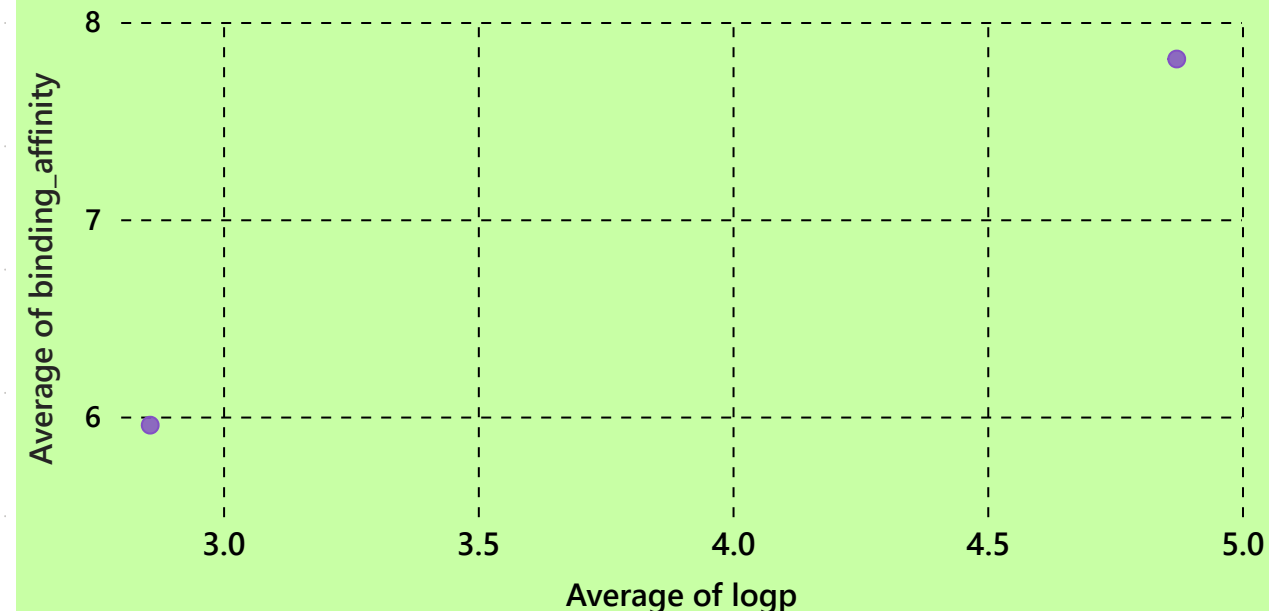

Average of polar_surface_area by active

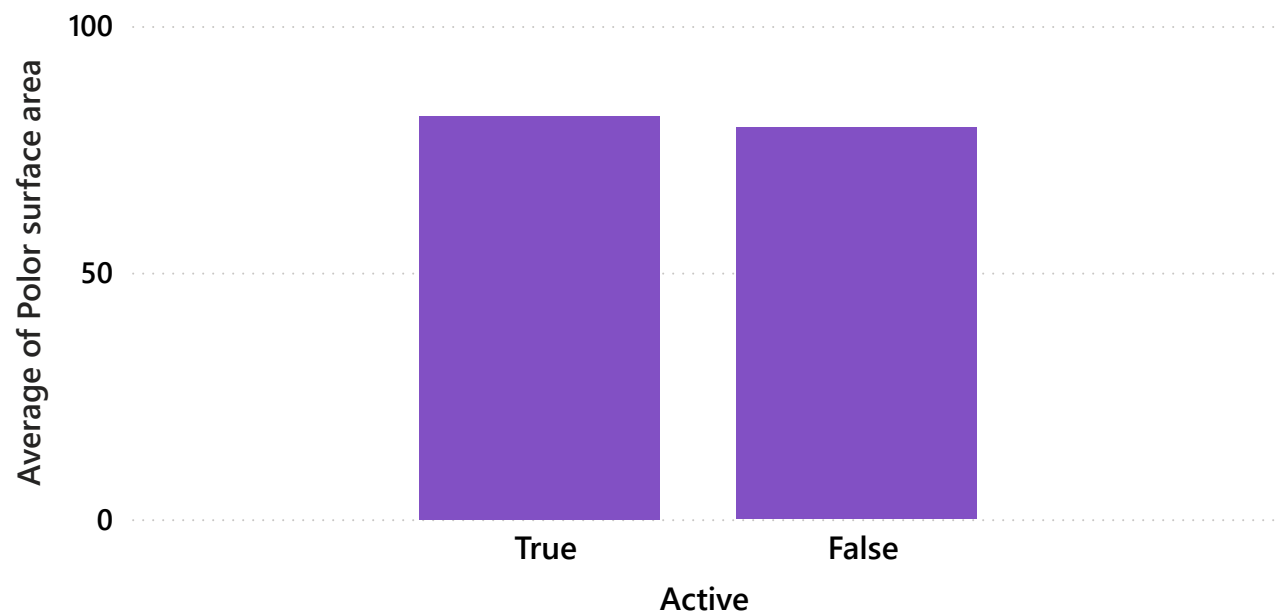

Average of binding_affinity by active

Average of logp and Average of binding_affinity by active

Average of polar_surface_area by active

Average of mw_ratio by active
